

# Getting Started with AdviceWorks™

## Put the clarity, convenience, and security of AdviceWorks to work for you!

AdviceWorks is designed to make it easier for you to see, understand, and manage your finances, and make it easier for you and your financial professional to work together. It's a powerful tool to help you pursue your financial goals. There's no better time than now to start using all it has to offer, so...

## Let's get started!

### Step 1: Log In

Starting with the **enrollment email from your financial professional**, you will be prompted to complete four simple steps to activate AdviceWorks. Keep your cell phone handy, as you will receive a security code by text for multi-factor authentication verification.

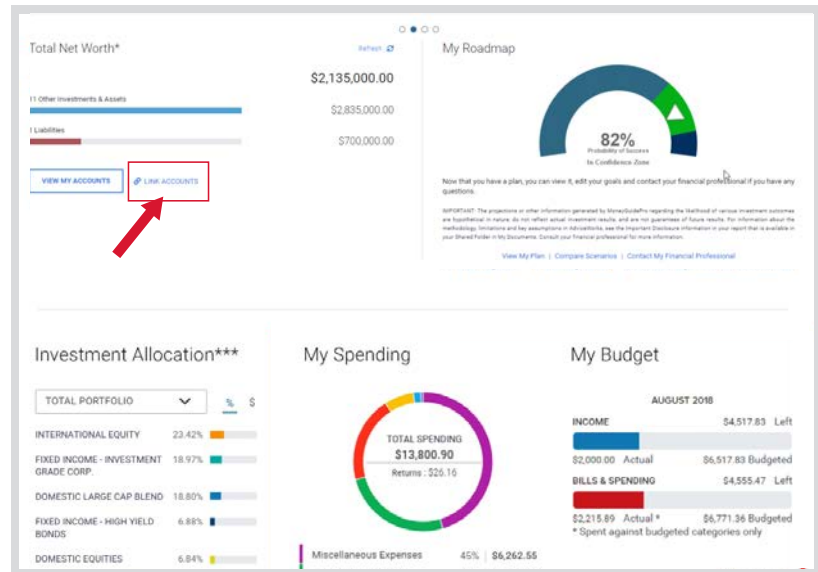

The screenshot shows the 'Log in' page. It includes a heading 'Log in', a note that the username is the email on file with the financial professional, and a 'Forgot password' link. There are input fields for 'Username' and 'Password' with icons for user and lock. A 'View' link is next to the password field. A blue 'LOG IN' button is at the bottom. On the right, a dark blue sidebar contains 'Need Help?' and 'HELP & SUPPORT 888-443-6380'.

## Step 2: Link Accounts

From your AdviceWorks dashboard, select **Link Accounts** in **Total Net Worth**. You will be prompted to select from a list of common financial institutions, or you can enter your own. Simply provide your username and passcode as directed to link the accounts. Note that you can only use the budgeting tools if you link your bank account(s).

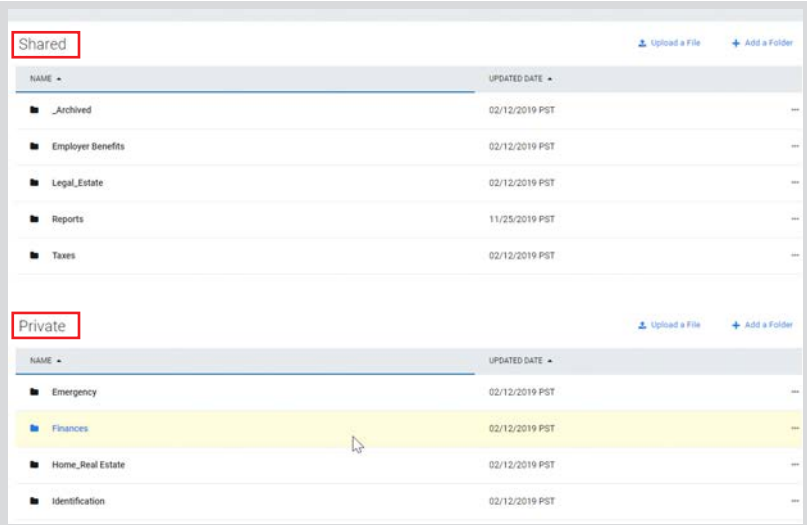

With one login you can access all your accounts including checking, savings, mortgage, and more. Those that are linked will automatically be updated with the most current values. All your information is protected and continuously monitored with robust security systems.

## Step 3: My Docs

Select the **My Docs** tab to find your **shared and private folders**. Within your shared folder, you can add documents or access reports and information from your financial professional. You can create and add to private folders as needed to organize documents the way you like.

**Shared folders** enable you to securely collaborate with your financial professional and access statements, account information, tax documents, and more.

**Private folders** allow you to securely store passports, wills, trusts, or any other documents you wish, giving you convenient access from any device at any time. These documents cannot be accessed by your financial professional.

The screenshot shows the 'My Docs' interface. It is divided into two sections: 'Shared' and 'Private'. Each section has a header with 'Upload a File' and 'Add a Folder' buttons. Below each header is a table of folders with columns for 'NAME' and 'UPDATED DATE'. In the 'Shared' section, folders include '\_Archived', 'Employer Benefits', 'Legal\_Estate', 'Reports', and 'Taxes'. In the 'Private' section, folders include 'Emergency', 'Finances', 'Home\_Real Estate', and 'Identification'. The 'Finances' folder is highlighted in yellow.
